

*Office of the President*

Dear friend of Independent Assemblies-

As you are well aware, the major earthquake that hit Haiti in January has left hundreds of thousands of people homeless, hungry and hurting. I know your desire is to bring hope and help to this devastated area. Though the years, our fellowship has been involved in evangelism, feeding programs, and in establishing Bible Schools and churches in this nation.

Immediately following the earthquake, I sent an email asking our pastors and local churches to give an "Earthquake Relief Offering", and within three weeks of our initial appeal, \$33,546 has been given! **To God be the Glory!**

This letter is to inform each of you of our efforts. If you haven't yet received a cash "Earthquake Relief Offering" in your church or sent a personal offering, please consider doing so right away! If each member receiving this letter could tell someone about our action plan, we can reach even more fellow laborers!

We are providing immediate relief in the form of food and supplies. The time will come when we will send teams of workers to help rebuild homes, churches, and schools that have been destroyed...For now, please pray: Pray for those who have lost family and friends...Pray for those who have no hope without Christ...Pray also, that God would direct us with plans for assistance.

Most of us have missions projects that we support financially. Many of you travel and support worthy missions works around the world. Please consider shifting some emphasis to the island nation of Haiti for future ministry. Let us seek God for our next move in His name!

Every dollar you send will be used to help the people of Haiti who have suffered so much.

Gratefully Redeemed,

Pastor Mickey Keith  
President, Independent Assemblies

P.S. Please send your donations to:
